"The Covered Wagon"

Shorthorn Breeders Golf Club Away Banquetted

On Wednesday night seventy of the representative farmers of the district and business men of Champion gathered in the Savoy Cafe dining room to do honor to Messrs. A. S. and C. D. McDougall whose Shorthorns made such an enviable record at the Calgary Spring Stock Show and Sale. A menu in keeping with the occasion was thoroughly enjoyed, the eatables and service being exceptional. With E. E. Gill in the chair a number of three-minute after-dinner speeches were made, full credit given the McDougall Bros. for the painstaking care and knowledge which has resulted in building up a herd of Shorthorns which have brought honor to themselves and the district wherever shown. Among the speakers were A. McCulloch, W. Congdon, Major Strachan, P. M. Patterson, W. H. Bowman, J. D. Henderson gave an interesting description of a cow, which was well received and which all the stockmen noted.

A. S. McDougall and F. X. Beingsner replied for the stockmen.

Women's Institute Conducts Service

The Women's Institute had charge of the service in the United Church on Sunday evening, Rev. S. R. Hunt, the pastor, still being unable as the result of sickness to take his regular work. There was a splendid attendance and the congregation evidently appreciated the way the service was handled by the members of the Institute. Mrs. F. C. Alcock read the Scripture lesson and offered prayer. Mrs. Bastin delivered the address—subject, "Life and Character of Mary of Magdala." Miss Stephenson presided at the piano, and Mrs. Watkins and Mrs. Ulrich took up the offering. The W.I. wish to thank Miss Stephenson and several members of choir for their kind assistance.

Card of Thanks

Mr. and Mrs. S. R. Hunt and family wish to heartily thank the many friends who by their constant kindnesses did all that could be done to assist and cheer them in their experience of family illness. Mr. Hunt would like in person, at the service on Sunday evening to thank all those who have carried on the Sunday school and evening services with such interest and acceptability. The staff of the Sunday school have before this demonstrated their loyalty: the C.G.I.T. Girls and C.S.E.T. Boys, the Ladies' Aid and (worthy of special mention because of their volunteered assistance of a community organization) the Women's Institute, with others working as individuals, all did nobly and well.

The marriage of Mr. Walter Hembree of Champion and Miss Mabel Bouquette of Armilla, Texas, took place in Calgary on Wednesday, April 18th. His relatives and friends were taken entirely by surprise by the occurrence, but such is life in the west, and best wishes are extended to the contracting parties.

Work on the land has commenced at several points in the district but conditions are not highly satisfactory at the best.

Golf Club Away To Good Start

A meeting of the Champion Golf Club was held on March 20th in the Canadian Bank of Commerce chambers. The first business of the meeting was the election of officers and committees as follows:

President—F. R. Duncanson. Sec. Treas.—W. H. Gaetz. Greens Committee—J. D. Henderson, J. M. Moffatt, W. A. McIntyre.

Tournament Committee—F. R. Duncanson, J. D. Henderson. It was decided that the Club would put on a whist drive and dance, with a view to raising money to help defray the cost of getting the course in shape. It was also decided that the fees remain unchanged from last year, namely, men \$7.00, family tickets \$10.00, ladies \$3, students \$1.

It was suggested that a tournament be held on the 24th of May and that invitations be extended to the golf clubs of the nearby towns, this matter, however, was left to the tournament committee.

The whist drive and dance was duly held in Campbell's Hall on the 10th inst. The turnout was not as large as had been hoped for and as the donations were not as liberal as for the affair held the previous year the golf club did not profit greatly. The prizes for the whist were awarded as follows:

Ladies' highest score—Mrs. Frain. Gentlemen's highest score—R. J. Cowell. Ladies' lowest score—Mrs. Caldwell. Gentlemen's lowest score—W. Tyler.

All those present report an enjoyable evening.

The work on the course has been started, trees having been made and as soon as the weather permits, sand and oil will be put on the greens. As a result of the work put on the course last year the expense of getting it into shape this year will be much less and the club will be able to keep the course in good condition throughout the season.

P.T.A. to Hold Social Evening

The P.T.A. have arranged another social evening for Monday, April 23rd, in the church, commencing at eight o'clock. Mr. Baker will give a paper on the homework question, a feature of which will be a question box, which the members are requested to come prepared for. The public school teachers, Miss Smithson, Miss Bond, and Mrs. Jopling will discuss the work required by each grade. There will be a program and all members are requested to be on hand.

The Golden Rule W.I. met at the home of Mrs. G. E. Lawrence on Thursday, April 12th. There was an exceptionally good attendance and the meeting was very interesting and enjoyable. Mrs. L. B. Ohlkeiser's paper on "Household Hints" was well prepared and appealed to the home keepers present. The meeting, after a discussion, decided to sponsor the reproduction of the comedy-drama "Civil Service," which made such a splendid impression on its first presentation by the Alton Dramatic Society. Dainty refreshments were served by Mrs. Lawrence assisted by Miss Helen Wilson.

NOTES AND COMMENT.

It would appear that the campaign against sowing seed that could possibly be considered damaged in any way without testing it thoroughly has been fairly successful. Tests reported would indicate that in many instances seed that was thought to be excellent produced very low germination results, while some regarded as doubtful proved on being tested to be good seed. Too much caution cannot be exercised in accepting seed without a certainty of its germination qualities.

Champion council adopted a rather novel procedure for a court of revision by excluding everybody from the room but the one person whose case was being dealt with. This may be a convenience to the members of the council, but does not recommend itself as being up to the standard of the ordinary court. There should be nothing occur at a court of revision which would not stand publicity at the time of its happening as well as afterwards.

Clean-up time is approaching rapidly and it is to be hoped it will not require the presence of an inspector to assure of the work being done thoroughly this spring. While operations will be delayed somewhat by the tremendous amount of moisture efforts should be made to have the clean up over at the earliest reasonable moment.

This spring has shown plainly that more drainage is needed if the streets are to be reasonably passable when the break-up comes. While it is doubtful if such another spring will fall to our lot for some time as far as moisture is concerned, the way in which the water has lain along the sides of the main street in front of the stores is sufficient evidence of lack of necessary drainage.

With the solution of the hall question nearing its completion in the Elks' hands the way will be open for a step forward in other directions. While it is never too late to mend, according to the old saying, there are times when it should be too late mend with discretion. Too something new must take the place of the utility which has passed its period of usefulness.

In spite of the broken weather more or less threshing has been done, although the movement has been far from general. The loss occasioned by sheaves being frozen to the ground has been quite a serious factor up to date and has kept many from attempting the work. Conditions have been steadily improving, however, despite unsettled weather and repeated snow buries and a larger number of pigs have been in action. The grain threshed this spring is grading fully as well as it did in the fall, bleaching being largely offset by the absence of moisture.

Under the heading "The Power Menace" the U.F.A. intimates that the granting of franchises to the Calgary Power Co. is bound to be a serious embarrassment to the province in the future, when provincial control is undertaken. The daily press and the Dominion Government are quoted as doing nothing to prevent the power company from entrencing itself in the province but the fact that the U.F.A. government has made no effort to prevent the granting of these questionable franchises does not seem to be of moment. If the power companies secure a lot of franchisees which later prove a handicap to the hydroelectric development in the Province the Provincial Government would appear to be the most responsible party to any such handicap which may result.

CHEVROLET TON-MILE ECONOMY

The Reason You Need
this CHEVROLET Truck!

THE lowest Ton-Mile Cost in the world (that is, the lowest cost of transporting one ton for one mile, or its equivalent) is the one big reason why truck-users in all lines of business are choosing the Chevrolet Ton-Truck. Added to this economy are amazing speed and dependability; exceptional performance, never before offered in a low-priced commercial car; ruggedness, strength and modern design undreamed-of in a truck so low in price.

Whether you need a truck for fast delivery on city streets or for steady transportation of ton-loads over all sorts of roads . . . you can find the right type of body available on the money-saving Chevrolet Ton-Truck Chassis. Ask your Chevrolet dealer.

The G.M.A.C. . . . General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet at time.

Local and General

Monday, May 7th, is Arbor Day.

Mrs. Harry Smith is visiting in Calgary.

Miss Ella Stephenson spent Sunday at her home here.

School re-opened on Monday after the Easter holidays.

Miss Oldroyd, of Cardston, was the guest of Mrs. O. Harper at Easter.

Mrs. J. N. Beaubler and Mrs. Barker visited Mrs. Lowe at Carmangay on Tuesday.

G. M. Campbell was in Calgary Friday as a member of the Alberta Arbitration Film Board.

Mrs. W. E. Watkins returned home on Friday from Calgary, having completely recovered from her recent operation.

Mr. Hunt hopes that commencing with the services on Sunday that he will be able to carry on his work as usual.

Miss Edna Ohlhauser, who had spent the Easter holidays at her home, returned to Calgary on Monday, where she is attending St. Mary's Academy.

K. R. McLean, R.O., Sight Specialist 212 Herald Bldg., Calgary, will make his monthly professional visit to Champion, at the Drug Store Friday April 27th.

The adjourned meeting of the ratepayers of the Municipal District of Harmony will be held in Campbell's hall, Champion, on Saturday, May 5th. The meeting will commence at one o'clock.

The Ladies' Aid will meet at the home of Mrs. Barker on Thursday, April 26th.

The "Covered Wagon" is coming once again to Champion Theatre on next Wed. April 25th. This will be your last and only chance to view the most wonderful western film ever made. Those who never saw it should not miss this last opportunity and those who have seen it, will get a big kick out of a second showing.

Warning to Farmers Regarding Seed Grain

The Hon. Mr. Hodley wishes to clearly point out to the farmers of Southern Alberta, who were unfortunate not to have their wheat threshed last fall, and who have since threshed it, or intend to do so and use the same seed—that such wheat is unfit to sow for the reason that the germination is not suitable. According to germination tests made by the Dominion Seed Branch at Calgary on a large number of samples collected of wheat threshed within the last couple of months, these show germination ranging from zero to 80 per cent; many samples testing around 30 per cent in six days and very few testing as high as 80 per cent in twelve days.

Under adverse climatic conditions this spring a poor crop is inevitable unless good strong seed is sown. Many farmers sold out all the grain they had threshed last fall expecting to have more threshed shortly and save their seed from that. Unfavorable weather conditions prevented the same and certain districts now find themselves short of good seed.

To meet the needs thus developing the Department of Agriculture has

got into touch with firms handling grain and grain seed, including the Pool, and these concerns are ready to ship seed to any point providing the demand is known. We would suggest that immediately every farmer interested should make his wants known to the local elevators or through the U.F.A. or other associations.

Something in the Air!

A census taker was census taking in the southern States. A young colored woman, seated before her cabin door, answered the questions while she trotted a baby on her knee, but between the baby's bawling and the young woman's efforts to quiet it, small progress could be made.

Finally the census taker laughed and said:

"The little chap is spoiled, isn't he?" "No sash on no ear," said the young woman earnestly. "Dat's de way all little cullud chillun smelt."—Financial Post.

BUILT TO DO THE WORK

"Built to do the Work"

10 Tractors Farm 5000 Acres!

"I own and operate the New Era Tractor Farm. It consists of about 5000 acres under plow. The largest part of it was prairie when I bought 10 Twin City Tractors in the spring of 1925.

"These tractors have furnished all the power used in breaking up and farming this land. They have operated with much less than the average expense for tractors doing the same amount of work.

"I have used nearly all makes of tractors, but these Twin City machines pull heavier loads for their rating, and do it more days per month without trouble than any I have ever used.

"Would advise anyone, before buying tractors, to be sure and consider the Twin City Tractors."

(signed) E. M. Young, Prop.
New Era Tractor Farm, McLaughlin, S. D.

TWIN CITY Tractors and Threshers

Twin City Tractors right in your own neighborhood are making just as splendid records for extra power, low upkeep and long life. Follow a Twin City out in his field at work. When it comes to a stretch of stiff going—it walks right on through.

A Twin City will pay for itself on your place by the extra profits it earns. Let us show you. Come in the next time you're in town.

Education and Religion

There is no subject in which the people of Western Canada take a deeper or more continuing interest than the subject of education. They demand the best for their children, and that they are prepared to pay for it is manifested by the splendid school buildings which are an outstanding feature in every Western city, town and village and in the steadily improving character of rural school houses, coupled with the generous financial provision made for the upkeep of the schools. Whatever complaint there may be in regard to the size of tax bills, the majority view it that, where pruning of expenditures is necessary, it must not be done at the expense of efficiency in education.

Demanding the best in education, there is much difference of opinion as to what constitutes the "best" and how it is to be attained. It is now generally accepted that the state owes to every child the rudiments of an education, and is responsible for seeing that each boy and girl receives it. Education must, therefore, be state aided, and the state which provides the money must supervise and control the educational system and be responsible for it. The vast majority of people today will not consent to that responsibility being delegated to any other authority.

People are, however, divided in opinion as to what should be taught in the schools. Roman Catholics hold tenaciously that a school without religion is godless and that character cannot be properly moulded or sound morals taught except through religious teaching, hence, as Father Ryan expresses it, in "The Catholic World," the Church cannot regard as satisfactory any system of education in which religion is not the foundation of the whole curriculum. Many Protestants, and an increasingly large number of them, agree. On the other hand, most Protestants insist that the state-aided schools shall be wholly secular, and that religious teaching is the duty of the Church, the Sunday schools and the home.

The educational systems of these Western Provinces are a compromise between these two opposing views in that they make provision for the establishment of minority separate schools and for the use of the last half-hour of the regular school day for religious instruction if the trustees so desire. This compromise, however, is objected to by many, and the opinion is frequently voiced that what this country should have is the national school system of the United States.

A century ago, however, all religious sects in the United States, Protestant as well as Catholic, opposed the wholly secular public school, and insisted, as they had from the time of the Puritans, upon religious training in the schools. Now, after a century of secular public schools, the churches of the United States are taking stock of the situation and looking restlessly squarely in the face. The universal trend of the complaint of the Protestant assemblies is "the comparative failure of the church's religious education," and that "neither the homes, nor the churches, nor the schools" provide an adequate religious training, and that "a solution must be found or disaster will befall both the Church and society." They recognize that the Sunday schools do not meet the need, because so small a proportion of the children attend, and the instruction for the most part is ineffective, because of lack of time, teacher preparation, and pupil interest. The problem confronting the Church is, therefore, one of combining religion with public education, Church and State working together for a great result neither can achieve alone.

What is happening? Nineteen of the principal Protestant bodies have formed the Council of Church Boards of Education for the purpose of carrying out a program of religious instruction during public school hours to supplement the regular curriculum. The plan is as follows: On the request of the parent, a child is assigned at the end of each week to a study of religion under a teacher designated by the parent. These teachers are appointed and supported by the sects, but their qualifications are to be the same as for other instructors. Likewise, the standard of work and the credit granted are determined as for other subjects. Where no legal bar prevents, classes have sometimes been held in the school buildings; otherwise, in rooms provided by the churches. Textbooks and study materials have been issued by the various denominations, and religious books have been distributed.

Week-day religious instruction on public school time has been adopted in about eight hundred communities in over twenty States. In New York City, Catholics and Protestants have united to secure the arrangement there. Laws sanctioning it have been passed in Iowa, Minnesota, Wisconsin, Oregon and South Dakota, while court decisions in two States and official rulings in eight others have protected it. Even where legislation has been rejected, or no action taken, the plan is proceeding without interference. This trend of thought and action in the United States, and the secular public school system has so long prevailed, is of interest, and the above outline is presented solely for the information of Western people anxious to discover what is best for their children and calculated to build up a strong Christian country.

On the crest of the Mouttas Mull, near St. Moritz, Switzerland, in a hotel where window lights at night have often been mistaken for stars so high is it above the town.

Nancy: "Mother, teacher says that we are here to help others."
Mother: "Yes, dear, she is right."
Nancy: "Well, what are the others here for?"

When Pain Comes

What many people call indigestion is really an acid condition of the stomach. The stomach nerves have been overstimulated and you will have your usual troubles. The corrective is an alkali, which neutralizes the acid and restores the stomach to its normal condition. It is known to medical science as **Phillips' Milk of Magnesia**. It has remained the standard for 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many lines of acid, and the symptoms disappear at once. You will have your usual troubles when once you learn the efficacy of this little white bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians. It is the standard for 50 years in correcting acid cases. Each bottle contains full directions—any drugstore.

Praise For Anti-Toxin Cure

Most Effective in Warding Off Diphtheria Says U.S. Doctor

The number of cases of diphtheria and deaths resulting therefrom have been reduced 60 per cent. in Pennsylvania in the last few years, says Dr. Theodore H. Appel, secretary of health, at Harrisburg. This phenomenal decrease, Dr. Appel held, has been due almost entirely to the use of toxin-antitoxin.

"Nothing has been more definitely proven," Dr. Appel said, "than the power of toxin-antitoxin to ward off that most dread childhood disease—diphtheria."

NEW BLOOD NEEDED IN THE SPRING TIME

Try Dr. Williams' Pink Pills As a Blood Improving, Health-Restoring Tonic

Every man and woman needs new, rich, red blood at this time of the year. That is a scientific fact. All doctors agree. The blood grows thin and poor in the winter; there is not enough of it, and spring shows the effect. Take notice and see how many people are pale and thin at this time of the year. They complain of being easily tired, their appetite is poor, and they are often depressed and low-spirited. That is Mother Nature trying to urge them to get their blood supply, but often their digestion is weakened so that they cannot turn food into blood worth help. Here is where modern medical science comes to the rescue. Dr. Williams' Pink Pills have a direct action on the blood and enable you to get full use of the blood-making elements in your meals. You soon feel their effect—your appetite improves, your nerves are steadier, color returns to your face and lips, you have more vim and energy, and can work with less fatigue.

The value of Dr. Williams' Pink Pills to all who are in want of it is shown in the following testimonial, proved by the experience of Mr. John A. O'Neil, Port Hood, N.S., who says: "It is not possible for me to recommend Dr. Williams' Pink Pills too highly. I had been gradually growing weaker, and found it hard to do my work. I suffered from severe indigestion and pain in the back. I was nervous and easily irritated, and altogether in a deplorable condition. A friend urged me to take Dr. Williams' Pink Pills, and I got half a dozen boxes. I had only taken them a short time when I found them helping me. By the time I had taken the supply I got, I was again enjoying good health. Headaches and pains had disappeared, my nerves were strengthened and I had good reason to be thankful that I had followed the advice of my friend."

Whether you are seriously ill or merely feel easily tired and out-of-sorts, you should try Dr. Williams' Pink Pills this spring. They are sold by medicine dealers everywhere, or you can send by mail at once, by writing The Dr. Williams' Medicine Co., Baltimore, Md.

Blue and White Tale

Development of the deposits of blue and white tale which are found in the vicinity of Banff, Alberta, is to be undertaken. The blue variety of tale which is very rare and valuable is used in electric insulators and gas burners while the white is extensively used in the preparation of cosmetics.

Asthma Cannot Last when the greatest of all medicines is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this accolade. It is a simple, safe, and effective remedy for all cases of asthma, whether of long standing or of recent origin. It helps to ease the most severe cases and brings the patient to a condition of health and vigor. Suffering from asthma is needless when a remedy like this is so easily secured.

A Zulu woman may not call her husband by his name, either when addressing him or when speaking of him to others; she must use the phrase "father of So-and-so."

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oil components Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Working On New Device

Dr. Whitney Thinks Idea For "Talking Bones" Practicable

And now talking bones, hoot to the blind, the ill, and those with tired eyes.

Dr. Willis R. Whitney, director of the General Electric laboratory, is working on such a device and thinks it is practicable. The plan is for a long strip of film to be translated into words by a loud speaker about three times as fast as reading.

Hawkers sold cabbage in the churchyard of St. Paul's, London, three hundred years ago until banished by the clergy because of the noise they made.

There are nine hundred miles of silk fibre in a pound of silk. China's yearly production is 9,000,000 pounds.

Red Cross Celebration

Fifty-Eight Nations Will Celebrate Hundredth Birthday Of Founder Of Organization

On May 8, 1898, fifty-eight national organizations, banded together under the Red Cross flag, will celebrate the hundredth birthday of Henri Dunant founder of the Red Cross and joint winner of the Nobel Peace prize.

In Toronto, the Ontario Division of the Canadian Red Cross Society will signalize the occasion by giving a banquet on April 20, 1908, when the delegates attending the Annual Meeting of Central Council, A limited number of tickets are being sold at the rate of the membership, and it is expected that nationally known speakers, including the Lieutenant-Governor of Ontario, will be present and give the celebration speeches. Similar functions will also be held in every Canadian province.

It is fitting indeed that such a centenary should not go by unnoticed, for Dunant did much to promote the idea that suffering in war, the agony of the battlefield could be largely mitigated.

It was while this great benefactor of humanity was travelling in Lombardy in 1859 that he saw 40,000 dead, dying, wounded and sick men lying on the battlefield of Solferino, without any nursing at all. He saw a drink of water in kindly service. The sight of this so wrong his heart that he did not rest until an impromptu hospital was prepared in the nearby town of Castiglione, with a voluntary ambulance and nursing service. He was the first to be known as the "Good Samaritan of Castiglione."

The sight of so much agony never left his mind and he wrote a brochure that was fraught with much significance to the world thereafter.

Dunant's ideas were travelled about Europe lecturing and giving his opinions regarding the treatment of soldiers in battle, pressing home the need for a reorganization of the medical services, for the rearrangement of plans for repatriating prisoners of war and caring for the wounded of their country's cause. Out of Dunant's first idea grew the Conference of Geneva which was the first Red Cross being made law for the world. The first Treaty of Geneva was signed by twelve out of sixteen national delegates at the first Red Cross society being formed in the German principality of Wurttemberg.

From that time the symbol of the Red Cross, which was originally adopted in honor of Switzerland, where the first treaty took place, became the chief organization to serve the soldier in war, and eventually to follow him and his family into civilized life, caring for the sick and providing him with general relief.

Great Britain adopted the Treaty of Geneva on February 18, 1905; Prussia joined June 22, 1905; Russia was linked up on July 5, 1905, and the United States on March 16, 1882. The Canadian Red Cross Society at first was an offshoot of the British organization, but is now entirely autonomous within the boundaries of the Dominion of Canada. There are subscribers to the same ideals but uses the symbol of the red crescent in place of the Red Cross, Turkey being purely a Mohammedan nation.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body to take care of the thoroughly cleansed the stomach and bowels and leave them in a condition not favorable to worms, as there will be no revival of the pests.

More Trackage For Vancouver

C.P.R. Will Install Over 160 Miles Of New Trackage To Provide For Increased Business

Over 100 miles of trackage serving the port of the Vancouver District will shortly have been laid by the Canadian Pacific Railway, according to a statement issued by the general superintendent of the district. The trackage is designed to take care of a steady and normal growth in trade through Vancouver and also to handle expansion in westward grain movement which is expected to set the record of 55,000,000 bushels.

No one need endure the agony of corn with Holloway's Corn Remover at hand to remove them.

Results Are Satisfactory

Big New York Store Starts Day With Song Service

Muscle as a method of "pepping up" and stimulating business has been adopted by Arnold Constable, 120 Broadway, New York, and, according to the consensus of opinions of the various executives, the results are satisfactory.

Early arrivals at this establishment who arrived before the usual hour of opening have been puzzled and rather intrigued by the sounds of music, the strains of singing choruses, proceeding from behind the closed portiere.

This feature occupies the period from 8.30 until the doors open at 9 a.m. Under a competent leader the chorus, made up from every department in the large establishment, enters into this brief song service. The music, which has been a noticeable feature of early morning activities, has disappeared at the close of the "songfest," all the participants are in their toes and the day starts with a vim and swing that is astonishing.

Returned Soldiers' Insurance Act

26,000 Policies Approved, Representing \$27,000,000 Insured

Under the Returned Soldiers' Insurance Act there are 26,000 policies, representing \$27,000,000 insured. According to a statement by L. H. Casselman, assistant deputy minister of soldiers' civil re-establishment, to the special parliamentary committee on pensions and returned soldier problems. He said the cash already collected amounted to \$3,000,000, an amount that was in excess of death claims. The actual loss of operating the act totalled \$1,200,000, based on the life time of the insured.

The girl in love who has a rival should keep an eye on her—and if the rival is a widow keep both eyes on her.

Keep Minard's Liment handy.

WHITE STAR LINE CANADIAN SERVICE

Farmers Well Represented

Lawyers and Farmers Have the Largest Representation in Parliament

Lawyers and farmers are the two best represented among the 245 members of the Canadian Federal House of Commons. There are 70 of the former and 50 of the latter. In the House of Commons, there are 30, then merchants with 23, followed by 12 journalists and nine manufacturers. The remaining 51 members represent a variety of callings.

Among the cabinet council of 17 there are six lawyers, four farmers, two journalists and the other five represent as many vocations. Each of the four former cabinet Ministers, Hon. Robert Forke, Minister of Agriculture and Colonization, Hon. W. R. Moberwell, Minister of Agriculture, Hon. Charles Stewart, Minister of the Interior and Hon. Charles Dunning, Minister of Railways and Canals, represents a constituency in Western Canada. Each began farming on the British Isles as young men without any capital. Hon. Mr. Forke and Hon. Mr. Dunning came from the British Isles as young men without any capital. Hon. Mr. Moberwell and Hon. Mr. Stewart are natives of Ontario, but as young men heeded the advice of Horace Greasy and went west to Saskatchewan and Alberta.

Did Understand

"And what do you propose to do now, Henry?" asked a farmer of the son who had just come home after graduating at college. "Oh," yawned the optimistic young man, "I think I'll go to London and look for a position in the City. I've heard of London as a place to make your money in." "Oh, yes," said the old man, "I understand! You mean at five hundred pounds per cent!"

Distemper.

Mix Minard's Liment with water and paint your walls with it. Brings quick results.

KING OF ITALY ESCAPES DEATH FROM BOMB

Milan, Italy.—Slight delay in an official program saved King Victor Emmanuel from assassination. A powerful bomb was exploded in some unknown way killing 15 and injuring 40 people in the Piazza Guala Cesare while the king was making a brief tour of the city on his way to greet the Milan fair. He made brief stops at historic points along the routes and reached the scene of the explosion ten minutes after it occurred. He was about ten minutes late in his schedule.

Most of the killed were blown to pieces. The infernal machine, composed of a tube filled with high explosives and controlled by a time clock, had been concealed inside the base of a lamp post.

Terrific havoc was wrought and there was a scene of terror and confusion when the sovereign appeared accompanied by his suite and the municipal authorities. The bodies of the dead and injured were taken into the exhibition grounds and King Victor immediately proceeded to carry out his duties of opening the fair.

Over the long distance telephone Premier Mussolini personally supervised measures for discovery of those responsible.

The premier sent warmest congratulations to King Victor Emmanuel on his escape.

The king displayed no anxiety for himself, but much for the wounded and the families of the victims.

A monster mass gathering in Cathedral Square was held this evening to give thanks for the king's escape.

An estimated at 100,000 crowded the square. Ringed by addresses of loyalty were delivered by Pietro Fedele, minister of public instruction, and by Secretary Giampaglia, of the Italian Fascist Council.

The base of the lamp-post where the bomb had been placed had a circumference of about 7 feet. Therefore the explosive powers of the bomb were increased many fold. When it burst, fragments of metal were scattered over a radius of an eighth of a mile. A huge hole was ripped in the pavement for a distance of a hundred or more feet.

Bliss Carman Awarded Medal

Presentation Will Be Made At Winnipeg In May

Ottawa.—Bliss Carman, M.A., LL.D., F.R.C.S., sometimes called the poet laureate of Canada, has been awarded the Lorne Pierce medal of the Royal Society of Canada in recognition of his great contribution to Canadian literature. This medal is conferred by the Royal Society upon a Canadian writer whose literary achievement is of outstanding excellence and represents the highest literary distinction a Canadian can win.

He will receive the medal at the meeting of the Royal Society in Winnipeg, May 22.

Unable To Pay Visit

London's Lord Mayor and His Gilded Coach Will Not Visit New York This Year

London.—London's Lord Mayor and his gilded coach will not visit New York this year. Sir Charles Bath said that he was unable to accept the invitation extended some time ago by Mayor James J. Walker, to come to New York and bring his ancient coach and gaily-varnished team.

"I have too much to do and it is impossible to get away even for a few weeks," said the Lord Mayor.

His excuse probably will be changed to "The Manitoba League Against Alcoholism." Another resolution adopted condemned the present system of government control of liquor, which, it says, has proved itself to be a liquor sale system lacking every element of effective control.

Protect Eastern Consumers

Will Make Public Price Of Alberta Coal At The Pit Mouth

Calgary.—At last! The new provincial coal standards board will act only in an advisory capacity and that the Government is desirous of having the price of Alberta coal at the pit mouth made public, were two important statements made by R. J. Dinning, minister of the new provincial board, at a meeting of coal operators held in Calgary to discuss the new 67.5 cents coal rate to Ontario.

Mr. Dinning intimated that the ones of having the various coal placed on the "preferred" list would rest with the operators themselves.

The list he said, would be submitted to J. A. Ellis, fuel controller in Ontario, at the earliest possible date.

The point was stressed by W. W. McInnis, of Edmonton, the chairman, that because a rate of 67.5 cents had been Ontario market. He intimated that the battle had been won. They had merely won the first round.

It depended upon operators, working in conjunction with the Alberta Government, to win the rest of the Ontario market. He intimated that if the movement was to be a success, it was absolutely necessary to safeguard the Ontario consumer in every possible way.

I.B.S. Broadcast Question

Matter Still Stands On Order Paper In House

Ottawa.—The government considering refusing to continue the license of the broadcasting station of the International Brotherhood of Students (I.B.S.), and if so, for what reason?" asked H. E. Spencer (U.S.A., Battle River), in the House of Commons.

Hon. P. J. Carlin, minister of mail and fisheries, replied that he had already answered a similar question. In view of this fact, and also because he proposed later to make a statement on the matter, he thought the question might be dropped. Mr. Spencer objected and asked Mr. Carlin to have the question stand on the order paper.

Mr. J. S. Woodhouse (Leduc, Winnipeg North Centre), declared that the minister had given no reason at all for refusing to renew these licenses. He failed to see why the minister should not answer the question. Mr. Speaker decided that the question would remain on the order paper.

Endorses Hudson's Bay Route

Canada Needs Another Outlet and Entrance, Says Noted Arctic Explorer

Montreal.—Favorable endorsement of the Hudson's Bay route was given by Captain Joseph R. Bernier, noted Arctic explorer, in an address before a local service club. There was a problem on the horizon, he said, which Montreal and the Dominion as a whole would have to face in future years.

As the population of the country grows and the trade of Canada increases, the port of Montreal was bound to obtain a congested condition and the Canada government had to find a way to provide another outlet.

Coupled with this problem, he remarked that the waters of the St. Lawrence were receding and he felt that if the large liners were going to be able to call at Montreal there would be a damming up of the waters of the river to maintain the necessary level.

Fall Grains Winter Well

Come Through In Ontario Better Than Elsewhere

Toronto.—Fall wheat, alfalfa and other clovers have thrived through the winter in Ontario in better condition than had been anticipated is the general consensus of opinion gleaned from reports received by the Ontario Department of Agriculture.

There is a general shortage of grain in nearly all parts of the province. It is particularly so for boys of 15 to 17 years of age who are being brought up by the Department of Colonization.

Amalgamation Of Vinegar Works

The amalgamation of a number of vinegar works in the province is being undertaken under the name of Western Vinegars, Limited, has just been effected.

Canada's Autonomy

Canada's Representation On League A Good Thing For The World

Montreal.—Canada's election to the council of the league of nations was international recognition of the Dominion's autonomous status. Sir Herbert B. Ames, former financial director of the league's secretariat, declared in an address here.

With this recognition of Canada's autonomy, Sir Herbert said, came the necessity for greater participation by the league's Canada, he added, had not been elected by any one group, but her candidature had been endorsed by states which had nothing to gain from her election, but which thought that Canadian representation on the council would be a good thing for the world at large.

NET DEBT OF CANADA REDUCED BY 87 MILLIONS

Ottawa.—A decrease of \$87,100,784 in the net debt of Canada during the fiscal year which closed on March 31 last is shown in the financial statement issued by the Department of Finance.

Until the department is in receipt of all the revenue collected in that part of the Dominion and until a number of obligations which properly come into last year's financing are met, the figures for the year cannot be regarded as complete, however.

Last year, the statement issued at the close of the fiscal year showed a decrease in the net debt of \$61,429,500. The net debt at the close of the fiscal year, according to the statement, was \$2,260,675,585.

Original revenues collected during the past year amounted to \$1,014,344,500, or an increase of \$28,233,356 over those of the previous year, the statement shows. Ordinary expenditure also recorded an increase amounting to \$15,407,665, and stood at \$206,708,741 on March 31 last.

The net debt at the beginning of 1926-27, of \$155,571,770 during the fiscal year just closed, as compared with \$140,882,800 in the previous year.

Revenue from excise duties showed an increase of \$8,827,037 over the 1926-27 figures.

There was a decrease of \$14,194,964 in excise tax collections, which included the sales tax. The total amount collected was \$97,016,220. Income tax collection recorded an increase of \$9,200,270 over the 1926-27 revenues. The total amount collected in the year just closed was \$56,547,570.

In the expenditure column, the item was one of \$120,780,973 for an interest on public debt. This was over a million dollars less than in the previous year.

The amount expended for pensions during the year just closed was \$36,165,835, or a decrease of \$24,533,061 in the previous year.

Honors For Aviator

Washington, D.C.—A bill proposing to give the congressional medal of honor to Clarence D. Chamberlin for his heroic flight from New York to Germany last summer was introduced in the senate by Senator Brookhart, Republican, Iowa.

Shorthand Speed Record

Dr. Hans Jannasch, official stenographer of the German Reichstag, claims the world's speed record for shorthand. At a recent contest, Dr. Jannasch wrote 470 syllables a minute for three minutes.

Empire Singers Enthral Canada

Singing a repertoire that includes over one hundred pieces of part-music, ranging through practically every style and taking in folk-songs of England, Scotland, Ireland, Wales and America, with both sacred and secular music, the Westminster Girls' Singers are now engaged in a tour of Canada that will be a delight to music-lovers.

The girls are singing in the Dominion under the patronage of the Excellency, the Governor-General of Canada, and have recently completed tours of Australia, New Zealand, the Straits Settlements, India and Ceylon, a record unequalled by any other musical organizations.

The singers are composed of male alto, tenors, basses and a number of boy sopranos who, like the men, are taken from the finest Cathedral choirs of Great Britain. They will give concerts in most of the cities of Canada from Halifax to Victoria and return. They are travelling for the most part on Canadian Pacific lines during their tour of the Dominion.

MAKING TOUR OF CANADA

John Walter, co-proprietor of the London Times, now making a tour of Canada under the auspices of the National Council of Education.

Another Aviator Has His Mind Fixed On "America By Air"

Madrid.—Another aviator has his eyes fixed on the goal of "America by Air." He is Captain Reginald F. Trulove, an English flier, formerly chief instructor at the Gaspot airfield, England, and later instructor of Spanish army aviators. He informed the Associated Press that he was preparing for a flight from the airfield at Seville, Spain, to New York by way of the Azores some time in June. He has not yet selected an airplane, but intends to use a light machine.

One of the men was caught in the corridor and refused to disclose his identity.

He informed the Associated Press that he was preparing for a flight from the airfield at Seville, Spain, to New York by way of the Azores some time in June. He has not yet selected an airplane, but intends to use a light machine.

One of the men was caught in the corridor and refused to disclose his identity.

For Trans-Atlantic Flight

Another Aviator Has His Mind Fixed On "America By Air"

Madrid.—Another aviator has his eyes fixed on the goal of "America by Air." He is Captain Reginald F. Trulove, an English flier, formerly chief instructor at the Gaspot airfield, England, and later instructor of Spanish army aviators. He informed the Associated Press that he was preparing for a flight from the airfield at Seville, Spain, to New York by way of the Azores some time in June. He has not yet selected an airplane, but intends to use a light machine.

One of the men was caught in the corridor and refused to disclose his identity.

STRAY BALLOTS DID NOT AFFECT ELECTION RESULT

Toronto.—The result of the 1926 provincial election in the riding of South Ottawa was not affected by stray ballots, according to the findings of Mr. Justice Macpherson, who was appointed a royal commission to investigate the matter, following disclosure by Hon. W. E. N. Sinclair, Liberal leader in the legislature, that ballots had been picked up on the streets of Ottawa, some time after the election. Their Lordships also find that there is no evidence to justify strictures upon the poll clerks or constables in the election.

The report of the judges is dated April 11 and was received by Premier G. H. Ferguson prior to a cabinet meeting held here. The prime minister had no comment to make upon the findings.

Their Lordships do not find that any irregularity was committed in relation to the ballots, but the fact that the ballots were found out of place, in the opinion of the judges, might create suspicion or uncertainty.

The judges find that P. M. Scott, returning officer for South Ottawa, was guilty of carelessness, irregularity, negligence and incompetence, as well as of unintentional wrongdoing.

Western Professors Honored

Recommended For Membership In The Royal Society Of Canada

Ottawa, Ont.—Councillors of the Royal Society of Canada in session today recommended the awarding of the Flavelle medal of the society for this year to Professor A. P. Coleman, of the University of Toronto, and of the Flavelle medal of the Saskatchewan Teachers' Association, of Saskatchewan. Professor Coleman was awarded the Flavelle medal for his work in the interests of science, while Senator Chapais earned his award by his meritorious work in the interests of Canadian history.

It was reported to the council that the various sections of the society had recommended for election this year the following western Canadian candidates for membership: Prof. D. C. Harvey, University of Manitoba; Prof. Robert H. Clark, University of British Columbia; Dr. Lloyd L. Dine, University of Saskatchewan; Prof. Stanley Smith, University of Alberta; Prof. Justin S. Delany, University of Saskatchewan.

Radio Waves Cause Storms

Such Is Belief Of Captain Of White Star Liner

New York.—Radio waves are increasing the violence of storms on sea and land, declared Captain V. H. Parker, of the White Star liner *Homeric*, which arrived here 24 hours after a buffeting from 40-foot waves which broke three winds on the promenade deck.

The atmosphere of the world, he contended, has been disturbed and upset by wireless electrical waves that clouds have precipitated as rain with resulting strong winds. He declared there was no precedent for the continuous storms on the ocean, the snows in Egypt and the cold along the Riviera.

He pointed out that March 7 was the coldest day of that date in Cairo, and the hottest ever recorded in London. As radio activity increases, the storms will increase in violence, he said.

Will Stay On The Job

Mayor Thompson Will Remain Chief Executive Of Chicago

Chicago.—Despite the fact that most of the candidates he had lacked were defeated in the primary, Mayor William Hale Thompson will have no reason for me to resign for the next three years. He declared that he had no intention of resigning the post he was elected to last year.

As positively will not resign, the mayor said, "Why should I? I captured the ward committees and we also got the majority district, so there's no reason for me to resign."

During the campaign the mayor had announced that if his favorite candidate, State Attorney Robert E. Crowe, co-leader in the Republican faction, was defeated, he would seriously consider giving up the mayoralty.

Crowe lost the primary to Judge John A. Swanson. Dene candidates by more than 100,000 votes.

CHAMPION CHATTER

VOL. 1

Thursday, April 19, 1928

No. 10

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DUPUE, Editor.

EDITORIAL

There are several champions in this town who sure can do a lot of thinking for the other folks, especially along the line of how to run a news paper, but we welcome their suggestions and would welcome them still more if they would sometimes come across with a small news item or two for Champion Chatter.

Mr. K. Vagg has taken out a new 24 run power lift single disc Drill.

"One in 15,000,000" (Sign seen on back of old Ford.)

The saying that heroes are without glory at home is certainly not the case in Champion, as the language given to show C. D. and A. S. McDougall and F. X. Beingsen the apprec-

iation of the community in their work and results is ample proof of this fact.

He there a man with no dead, who never to his spouse hath said, "I've got to go to lodge tonight. You might as well turn out the light and trot along to bed."

You don't take your shoes to a doctor if you need to have them half-soled, and you never go to a blacksmith to get yourself cured of a cold. Now you may not be sick or shodless, and we couldn't help much if you were, but when it comes to good implements, you bet that's just what we're here for.

"My Class" said a long-suffering teacher at the Champion School the other day, "is like the McNary-Haugen Bill; it won't work."

If it is true that women decide 80 per cent of all purchases, it only gives

to prove that most males have peace more than victory.

The path of progress is strewn with the wrecks of fools and fogies.

Did you ever notice that all hard-boiled eggs are yellow inside.

Mother Goose (?) Jack and Jill went up the hill, to see a boot-legger's daughter, but alas and alack they had to walk back, 'cause the cops had been there and got her.

Ask your neighbor what he thinks of his Mc-D's tractor; then see us.

We aim to please and our customers tell us our aim is good.

"Good Equipment Makes a Good Farmer Better"

Local and General

Through a misunderstanding reference to the Golf Club card party and dance was omitted, as well as a resume of the business done at their annual meeting. These omissions are made good this week as far as possible.

The court of revision for the Village was held in the council chambers on Friday evening last. There were some ten appeals which were finally dealt with, with one or two exceptions. Assessor May was present in defence of his estimates of value.

A case decided in Calgary recently will prove of interest to threshers if the decision is upheld on appeal. John Klein, threshing for J. W. Sanderson, pulled off the job after threshing some 300 acres without completing the job. His bill amounted to \$1832.90 of which he had received \$1208.00, leaving a balance of \$624.90. This amount Sanderson refused to pay unless Klein gave a written assurance he would finish the job at any time called upon. This Klein refused to do and sued for the

balance due him. Judgment was for the defendant with costs. The case has been appealed.

The high price of 72c per pound was paid by James Ramsey Ltd. of Edmonton for the calf shown by Margaret Roper of Lacombe following the awarding of prizes in the children's calf feeding competition at the Edmonton spring show. This calf stood second in the show ring.

The electric lights flashed on and off on Sunday night a couple of times but the period of darkness was of very short duration. Sunday night is naturally preferred for the exhibition of eccentricity on the part of the lights to Saturday night, the latter having been the time of previous troubles.

On Wednesday evening the friends and neighbors of Mr. Nile Hill gathered at his home and presented him with a beautiful club bag. It was a surprise party and all joined in wishing him many happy days in his new surroundings. He had resided in the Alston district for many years and will

be greatly missed by his many friends.

Construction work on the million dollar store to be erected in Calgary by the T. Eaton Co. Ltd. is to commence immediately and according to the terms of the contract which has been awarded to the J. McDiarmid Co. Ltd. of Winnipeg the building is to be completed by February 1st next.

Work on the proposed improvements and additions to the Ford Garage are under way in the hands of L. W. Boden. The building will be transformed into an up-to-date garage, the cost being estimated at \$3,000. Messrs. Kulpas and Atkins are to be congratulated on their enterprise and they will no doubt reap full advantage from their investment.

J. A. Kulpas made a business trip to Lethbridge on Saturday.

Installs Modern Refrigerating System

G. M. Campbell has installed a Kelvinator refrigerating system, operated by electricity, which is thoroughly modern and up to date. This will permit him handling perishable goods of all kinds during the hottest weather without the loss which formerly occurred. The installation represents an investment of some \$500.

Mrs. J. Doyle was a Calgary visitor this week.
V. S. McClure spent a few days in Calgary this week.

Beauty that attracts beauty

Long, low lines give grace and beauty to the McLaughlin-Buick bodies, but without the slightest sacrifice of strength or room. Upholstery and appointments give the driver comfort and a head-on view of performance no less than of appearance. The McLaughlin-Buick is the discerning lady driver.

THE unflinching feminine appreciation of beauty makes McLaughlin-Buick the most popular car in its class among lady drivers.

The G. M. A. C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.
